Referral Instructions

- Submit this referral form to the PCN pharmacist by **fax** (xxx) xxx-xxxx or **MediNet** secure e-mail: <https://medinetmail.ca/cgi-bin/SAMPLE-PCN>
- **Attach** relevant medical history and lab test results.
- **We will contact the patient** to book an appointment and send a follow-up email to the patient with information about the PCN pharmacist and what to expect at the appointment.
- We will **notify you** of the patient's appointment once it is booked.

About the PCN Clinical Pharmacist, what we do for you:

- Give you access to expertise in evidence-based medicine, therapeutic decision-making and drug therapy problem-solving to help you optimize the care of any patient taking medications.
- Use a **collaborative approach** that respects your role in the care of patients. We work with you and the patient to achieve the best possible drug therapy outcomes.
- Develop and implement a **detailed care/follow-up plan** to resolve any medication-related issues, as required.

About the PCN Clinical Pharmacist, what we do for your patients:

- **One on one consultations** to answer and share information about medications and how to take them.
- **Provide care within a larger healthcare network** consisting of the physician, community pharmacist and other health care professionals.
- **Follow-up, action and results** to successfully implement, monitor, and adjust drug therapies for optimal results.
- **Provide ongoing collaborative care** to help patients achieve the shared goals of the patient and their health care team.

We look forward to participating in the care of the patient.
